

It seems well maintained and also has new windows. Being so high up, it is very secure, and iron gates protect it. The lowest hall, on the ground floor, will be used for catechism classes and parish meetings.

Entrance to future Sacristy

All in all, the property has 553 sq meters of floor space, and is admirably suited to the celebration of the traditional Latin Mass, and the development of a fervent parish life, with all the spiritual and social activities that this entails, as well as space for live-in building caretakers to ensure security. We have secured this property in anticipation of your generous help in paying off the money that had to be borrowed to do so. If you really care about the spread of the Faith, of Catholic Tradition, of the true sacraments, of the life of the Church here in Africa, now is the time to make your commitment. May God bless you for it.

PARISH LIFE AT OLD CHAPEL

The Catholic Faith lived in all its tradition, has found its home in the hearts of the people of Lagos, Nigeria. Thanks to the Priests of the Society of St. Pius X, they can be formed according to the tradition of the Church.

NEW CHURCH FOR TRADITION IN LAGOS, NIGERIA

The Society of Saint Pius X is delighted to announce that after eight years of waiting, it has finally been able to purchase a church building in the heart of the most populous city of Africa, Lagos.

After years of searching, Divine Providence provided a suitable permanent church for St. Pius X chapel in the city of Yaba, very close to the centre of Lagos, close to public transport and the main highways. It is located at 69 Queen Street, only one block from a major artery Herbert Macaulay Way in a residential neighbourhood which is of colonial origin, with car parking available

The property is located on a typical English colonial one lot block, which is 60 feet by 120 feet in size, and the price N80 million, which sum was mostly borrowed and must be repaid. It is for this reason that we request your generosity.

Front view of the building

View from the street

The building consists of two sections, joined together by a central staircase to all sections of the property. The front building, well maintained, consists of two floors. The ground floor measures of 9 m x 18 m, with a hall at the front 9 m x 6 m, and then a hallway behind with three rooms off it on each side. There is a staircase going up to the upper section. It will become the parish hall, bookstore, priest's office, kitchen, and has its own toilets.

View from ground level: Entrance

The upstairs of the front section is a hall 18 m x 10 m. It will become our new chapel. The ceiling is of moderate height and well finished wood. Access in the front is from a staircase from down stairs, and from the back. There will be direct access from behind the altar to the sacristy and to the priests' quarters.

2. Front building: Lower level corridor
3. Future Sacristy
4. Future Priest apartment

The back section consists of three floors, each 9m x 12 m in size. There are toilets on every level. On each level there is hall which is 9 m x 7 m in size. The middle floor, next to the back door into the Church is perfect for a sacristy. It has its own private toilet, separate from the public toilet. The hall on the third floor, the top, is perfect for a priests' apartment.
